### SUMMARY

Frontend / Full-Stack Developer with 5+ years of experience building scalable web and mobile applications using React, Next.js, TypeScript, and React Native. I focus on end-to-end product development, performance optimization, and API integrations, with a strong background across e-commerce, SaaS, and real-time applications.

### EXPERIENCE

#### Full Stack Developer · Varak the Edible Luxury

02/2026 – Present

Freelance / Contract

- Built internal tools that route WhatsApp order data into Recaho, the restaurant's POS system, replacing manual data entry.
- Provide ongoing website and app support.

#### Frontend Developer · Pollarise.com

08/2025 – 01/2026

Freelance / Contract

- Built a real-time voting system with local-first optimistic updates and server-side reconciliation, supporting high-frequency user interactions.
- Built the frontend as an SEO-rich, fast-loading Next.js site.

#### Frontend Developer · Clonify IO

04/2025 – 08/2025

Freelance / Contract

- Led frontend and backend development migrating a subscription-based product from WordPress to a modern SaaS stack.
- Improved site performance, scalability, and maintainability of the new platform.
- Contributed to architecture decisions, payments, and admin workflows.

#### Next.js & Payload CMS Developer · Team Enoch

04/2024 – 08/2025

Freelance / Contract

- Shipped 2 new content-driven product features on Team Enoch's Next.js/Payload CMS platform, taking each from spec to production.

#### Full Stack React Native Developer · Tech Chart IO

03/2022 – 07/2024

Freelance / Contract

- Built the Archery Garage cross-platform mobile app end-to-end with React Native/Expo, from UI to backend.
- Implemented live location tracking with the Mapbox and Google Places APIs, backed by a Node.js/Express API deployed to Azure.
- Continued as a part-time backend engineer after the app shipped, maintaining the API and adding further Maps & Places integrations for nearby-location features.
- Shipped the app to both the App Store and Google Play.

#### React & React Native Developer · Pasa Website Pvt Ltd

11/2019 – 07/2023

Full-time

- Developed ecommerce website, Android & iOS apps.
- Developed stock management & accounting software for vendors.
- Managed and helped grow interns in React.js and WordPress.

## **PHP & React Developer · Karuna Hospital Pvt Ltd**

04/2019 – 03/2021

Full-time

- Developed in-house clinical management software for patient records, appointments, and daily reports.
- Worked closely with medical staff to translate clinical workflows into usable digital systems.
- Built reporting tools and documentation workflows to support hospital operations.
- Later contributed to modernizing parts of the system using React.
